

I oppose media concentration!

I am strongly opposed to allowing more media concentration. Please do not increase the number of radio, T.V. stations owned by one entity any more than there are already existing.

The concentration that is being considered will allow a few individuals to control what we see or here. If passed this will take us back to the days of William Randolph Hearst and his control of his media empire which controlled the bulk of the news in the U.S.A.

It is definitely NOT IN THE PUBLIC INTEREST to allow more concentration.

Thank you for your consideration,

Merv Shenson
